S I R:

Attention is respectfully directed to the items of information (copies enclosed, with two exceptions noted below) listed on the attached Form PTO/SB/08A.

Several of these items were cited in an Office Action (copy also enclosed) dated June 16, 2005, in application No. 10/330,636, which is a division of the above-identified application. The remaining items were cited in a search report from the European Patent Office (copy also enclosed) in applicant's counterpart European patent application; it will be noted that the European search report cites additional items which are already of record in the present application.

No copy of U.S. patent No. 3,502,089 is submitted herewith, because that patent was cited in the present application (as

patent No. "3,503,089") by the Examiner on p. 2 of Form PTO-892 attached to the Office Action dated March 20, 2003, with a copy supplied to applicant. No copy of French patent document No. 2759872A is submitted herewith, because that document is the French counterpart of U.S. patent No. 6,073,634, already of record in the present application, and as such is believed to be merely cumulative thereto.

This Information Disclosure Statement is being submitted with a Request (and fee check for \$790) for Continued Examination, since the present application has been allowed although the issue fee has not been paid. If any additional fee is required in connection with this Information Disclosure Statement, please charge the amount of such fee to Deposit Account No. 03-3125.

Respectfully,
